

Longitude_OSGR- Longitude according to Ordnance Survey Grid Reference(OSGR)

Latitude_OSGR - Latitude according to Ordnance Survey Grid Reference(OSGR)

Lsoa_of_accident_location - Lower Layer Super Output Areas (LSOA) are a geographic hierarchy designed to improve the reporting of small area statistics in England and Wales. In short, lsoa denotes the geographic area.

First and second road numbers -

First road number represents the road number where the accident occurred, if the accident occurred at an intersection between 2 different roads/street, The second road number would then represent the road number of that second road. That is why not all the accidents have a second road number, because some accidents did not occur at conjunction/intersection.

First and second road classes - denotes the type of road

Trunk road flag - Trunk road means a highway.
